LIVE2540 is committed to the restoration of hope and health for the abused and abandoned, the hungry and the sick. To create a climate where the Holy Spirit abides, compassion flows freely and in turn the Glory of God is revealed.
WHERE WE SERVE

GEORGIA

BURKINA FASO
LIBERIA

ECUADOR

PHILIPPINES
This year has been an amazing year for The Best Shirt On Earth! What started as a simple shirt for a mission team has turned into funding millions of meals across the globe. The first LOVE shirt was printed in 2016 and soon the 100,000th will be printed. So many compassionate people embraced the mission of the shirt that it became necessary to open a retail location. 2020 was the first full year for the LOVE Store located in downtown Cartersville, Georgia. That retail facility combined with our growing online presence at bestshirtonearth.com made for many grateful hearts and many full bellies.
We love our family in Bartow County, Georgia. They are key players in carrying out the LIVE2540 mission. As COVID19 impacted people worldwide, it also affected our family here in Bartow county. There was no question that we would spend our time and resources investing in local partners serving on the front lines fighting for and providing for our families. We are grateful for the beautiful relationships we were able to form and as we enter 2021 are already planning our collaborative efforts.
THE NAME CHANGE

Since 2008 the journey has been quite an adventure. As Orphan Aid, Liberia has continued to follow the Holy Spirit's leading, we have traveled down many different paths. Some have been mighty, muddy trails. As we have found ourselves in new places, carrying out differing projects, the name Orphan Aid, Liberia no longer clearly represented the totality of our mission. It became evident that we should adopt a new name.

We now journey forward as LIVE2540, Inc. LIVE (to live) 2540 (Matthew 25:40) is a call to serve the least of these, near and far. Knowing that as we love them, at the same time we are loving Him. As we all live this out side by side the impact of this collective effort will be more beautiful than we can imagine.

Committed to the restoration of hope and health for the abused and abandoned, the hungry and the sick. To create a climate where the Holy Spirit abides, compassion flows freely and in turn the Glory of God is revealed.
91,000 PACKETS OF PLUMPY NUT

Plumpy Nut has been a critical part of our work in West Africa in 2020. This year we have distributed over 90,000 packets to malnutrition clinics in Liberia and Burkina Faso. This has been a life saving effort for hundreds of malnourished children.

As poverty expands and many more families are displaced due to ongoing terrorism, we estimate the need for Plumpy Nut in 2021 to be in excess of 180,000 packets. Plumpy Nut is a top-shelf hyper-nourishing peanut product filled with vitamins and minerals. At a cost of 48 cents per packet we are able to have the product manufactured and shipped to local clinics serving thousands of beautiful children.

The need is great, and these mothers are immensely grateful for all who stand alongside them in caring for their children.
350 K-12 STUDENTS

EDUCATING THE FUTURE OF LIBERIA

Representing almost one half of the population are Liberia’s 2 million children. For them, their journey to adulthood is not an easy one. They have to overcome many obstacles. One of those great obstacles is the lack of access to education. In 2020, hundreds of scholarships were provided by LIVE2540 for children attending Pre-K through College. Many of our younger children are given access to the Liberia Reads program, and they are reading very well. Our older children are studying agriculture, education, nursing and theology. They all are working diligently and are grateful for the opportunity to attend school. They are the future and as we continue to invest in them we believe they will affect great change.

COLLEGE STUDENTS
Food insecurity, as when we began our work in 2008, still today is a major concern. It will remain one of the cornerstones of our mission as we move into 2021.

In 2020 we distributed over 100 tons of food to children, women, and men in need living in the Philippines, Burkina Faso, Liberia, Ecuador, and the U.S.A. We fed children orphaned by war, disease, and lack of access to healthcare. We fed refugees displaced from their homes due to terrorism. We fed families living on four continents that were affected by the economic impact of the coronavirus. We fed young girls that have escaped and are dealing with the trauma of sex trafficking. Over 7 million meals have been distributed among people living in some of the poorest villages in the world. They are grateful for every bite.
EGGCITING NEWS

75,000 EGGS

We currently have 4 houses in Liberia that are home to hundreds of chickens. These birds love to lay eggs and provide many of the children we serve with protein each day. We all are grateful for every egg laid this year. As they say, "yummy, yummy, yummy."
BURKINA FASO

FEEDING 137 FAMILIES

As terrorism continues to rise this year has brought much heartache alongside increasing poverty for the people of Burkina Faso. Through strategic partnerships we have been able to provide food, clothing, and sanitary supplies for 137 refugee families displaced from their homes by terrorist. 2021 will usher in opportunities to deepen our investment and expand efforts to provide more fully for the physical and spiritual needs of these and more displaced peoples.

2020 ANNUAL REPORT
The Davis family are missionaries serving in the country of Liberia. Emmanuel was born in Liberia, moved to Canada, and was called back to Liberia to plant a church as well as teach and equip local pastors. His wife Angela, who works with Path of Hope initiatives, and four children Seth, Acacia, Elijah, and Adiah also serve daily in the ministry. This year we have invested in their work by equipping them with audio Bibles as well as funding early stages of home construction located near their recently planted church and training center.
Sewing initiatives have provided an escape for this survivor.

PATH OF HOPE

In February we partnered with Sunrise Ministries to develop two rescue and restoration programs. One being for young girls escaping sex trafficking and the other offering vulnerable girls with opportunities to protect as well as provide for themselves.

These programs are finding success through trauma healing counseling, mentorship, discipleship, and avenues of opportunity. Many minds, hands, and hearts have come together to diligently and strategically carry out this work.

Young girls being educated on the dangers around them and how to protect themselves.
2020 was a year of abundant blessings and we trust 2021 will be even greater than we can imagine.

Love Him, Love them.
