OUR MISSION

LIVE2540 is committed to the restoration of hope and health for the abused and abandoned, the hungry and the sick. To create a climate where the Holy Spirit abides. compassion flows freely and in turn the Glory of God is revealed.
Whatever you've done for the least of these you've done for me.

MATTHEW 25:40
This year, LIVE2540 impacted change by providing food, education, and medication to beautiful children in five different countries worldwide.

COUNTRIES IMPACTED

Georgia
Ecuador
Burkina Faso
Liberia
Philippines
316,500 PACKETS OF PLUMPY'NUT

Plumpy'Nut is a hyper-nutritious peanut paste that reverses acute malnourishment for children under five.

At 48 cents per packet, we manufacture and ship Plumpy'nut to local clinics serving thousands of beautiful children in Liberia and Burkina Faso.
PLUMPY'NUT

WHAT IS PLUMPY'NUT?

Plumpy'Nut is a hyper-nutritious peanut paste that reverses acute malnourishment for children under the age of five.

Children are given 2 to 3 packets of Plumpy'Nut a day for 3-4 weeks. It takes an average of 50-60 packets to reverse malnutrition for one child.

$1 Dollar = 2 Plumpy'Nut Packets

Elin
Elin and her friend, Nora, raised $42 by hosting a lemonade stand. They handed out free lemonade and were surprised by how many of their neighbors happily donated to the cause.

The Minesinger Girls
Haley raised $5,827 by walking two miles every day with her daughters for a week. She asked mothers in the community to join with her to support other moms around the world.

The Holbert Twins
The Holbert twins raised over $5,000 dollars by hiking 50 miles in 38 hours. They asked family and friends to sponsor them for each mile, and their original goal was multiplied five times.

This year we launched our new P2P software. Many cool campaigns were launched, tens of thousands of dollars were raised, and in return, over 130,000 packets of Plumpy'Nut were distributed to numerous pediatric clinics serving malnourished children. Learn more at live2540.org/peer-2-peer/
FOOD DISTRIBUTION

An incredible number of meals were served this year to orphaned children, refugees displaced from their homes due to terrorism and families living on four continents that were affected by the economic impact of COVID-19.

Hundreds of children went back to school this fall on **scholarship**, attending Pre-K through college.

Many young children learned to read for the first time, and our college students are enrolled in nursing, education, theology, and agriculture schools.
We love our local family. They are key players in carrying out the LIVE2540 mission. We are grateful for the opportunity to invest in local partners on the front lines serving the people of Bartow County.
The Davis family are missionaries serving the country of Liberia. We have been partnering with them since 2019. This year we came alongside them to finalize construction of their home as well as begin researching a potential pastoral training center.
Purpose Has A Name- Ernest

Story Highlight

Every year we’re involved in many specialized medical interventions. This year some of those interventions were burn treatments, orthopedic repairs, hernia surgeries, and open-heart surgery.

At the beginning of the year, a doctor from Liberia made an urgent plea on behalf of a 2-year-old boy named Ernest. He needed emergency heart surgery, or he was likely not to survive. The cost required for his operation and travel to India, where the surgery would be performed, was close to $15,000. You came through with $17,000 in under 24 hours.

Ernest had a successful surgery and is healthy and happy in his home in Liberia today.
AGAPE GATHERINGS

This year we opened the Mission Center, which is the new home of our Agape Gatherings, existing to bring awareness to the mission of LIVE2540.

We have gone back to ancient ways and gather around the dinner table to discuss faith and mission.
A CLINIC FOR THE MOST VULNERABLE

In November, we broke ground on a pediatric clinic in one of the most remote counties in Liberia: Bong County. Hundreds of children will receive care for malnutrition, malaria, and much more. They will walk away knowing that Jesus truly loves them.
2021 was a year of abundant blessings and we trust 2022 will be even greater than we can imagine.

Love Him, Love them.
